

Suffolk County Department of Health

Bureau of Public Health Nursing

Why Choose a Pediatric Asthma Home Visit by a Public Health Nurse?

- Home visits provide comprehensive teaching, valuable education and skill development to manage your patient's disease.
- Established Visit Guidelines from the National Asthma Education and Prevention Program
- BSN prepared nurses licensed to do medication reconciliation
- A history of high quality care in the treatment of asthma
- Nurses trained by the Asthma Educator Training Institute using the same educational materials as SBUH from the Asthma Coalition
- Unique Culturally sensitive program
